

CAR DEPARTMENT OF RY. SHOPS ADDS MEN

HONOR AMERICAN SOLDIER DEAD ON FOREIGN SOIL

WREATHS WILL BE PLACED ON THEIR GRAVES AND APPROPRIATE SERVICES HELD

(By United Press)

Paris, May 28—American soldier dead throughout Europe will be honored Monday by their co-patriots and citizens of the countries where their bodies lie.

Wreaths will be placed by representatives of the American Legion on more than 50,000 graves in France, Great Britain, Italy and Belgium. Final services will be held in the four big cemeteries in this country at Suresmes, Romange, Belleau and Bony.

Marshal Petain will deliver the Memorial Day address at Suresmes. Rear Admiral Magruder and Brigadier General Johnston will speak at Belleau in the morning and at Chateau Thierry in the afternoon. Brigadier General Parker who commands the first division, will conduct the services at Ploisy.

I. W. W.'s Attempt to Seize Freight Train, Are Arrested and Jailed

(By United Press)

Denver, Col., May 28—Twenty-seven alleged members of the I. W. W. and hoboos were in jail here today following their attempt to commandeer a Union Pacific freight train and running it from Cheyenne to Denver. The attempt was unsuccessful but the "boes" defied the crew and rode to Denver where they were met by a squad of police. Most of them explained they were "tourists" and were desirous of spending the summer in Colorado.

ANGLO-AMERICAN WORKING ENTENTE

IS FORSEEN BY REPUBLICAN MEMBERS OF SENATE TO PRESERVE WORLD PEACE

(United Press)

Washington, May 28—An Anglo-American working entente as the foundation for international arrangements for preserving world peace, is forseen by republican members of the senate foreign relations committee.

The Borah disarmament plan may, in the opinion of these senators, lead to the working out of this "understanding" between the two nations. Disarmament is admittedly a requisite to sustain peace these senators pointed out.

They assume, of course, that the Borah proposal will be adopted by the house as a rider to the naval bill as it has been by the senate and that President Harding will sign the bill within a reasonable time acting on Borah's suggestion of a three-power naval disarmament conference.

MME. CURIE

Mme. Curie, discoverer of radium, has been presented with a gram of the precious element by the women of America.

William A. Steuart of Michigan, who has been appointed director of the census by President Harding. He has been holding the position of assistant director. Mr. Steuart first entered the census service in 1880.

THROW BOMB AT BULGARIAN KING

KING ESCAPES BUT TWO MEN ARE KILLED AND 10 ARE INJURED

(By United Press)

Sofia, May 28—Two men were killed and ten injured here Friday when a bomb was thrown at King Boris. The king was unhurt.

Boris and a party of governmental church officials were attending the ceremonies at the Metropolitan church commemorating anniversary of Saints Cyrilus and Methodius. Students staged a spontaneous demonstration with the king after which he addressed them. As he was speaking a bomb was hurled from the crowd toward him. The crowd in revenge had fired the communist club and police experienced difficulty in restoring order. The person who threw the bomb escaped.

Rickenbacher Expects to Reach Washington Today

(United Press)

Chicago, May 28—Captain Eddie Rickenbacher left here at 7 A. M. today for Dayton in his trans-continental air flight for the American Legion.

Rickenbacher is flying with Lieut. H. J. Woodbridge, who was ordered to make the trip by General John Mitchell, chief of air service. From Dayton to Washington, Rickenbacher will fly his own plane. He hopes to arrive in Washington early this afternoon.

The sky was cloudy and a north-west wind was on their tail as they took off.

Arrives at Dayton

Dayton, May 28—Eddie Rickenbacher landed here today from Chicago shortly after 10 A. M. He left at 11:06 for Washington flying his own plane.

Cannuck Fisheries Schooner Sinks Jap Sealing Boat

(By United Press)

Prince Rupert, B. C., May 28—According to reports which were brought here by a coasting vessel, a Japanese schooner has been caught sealing and sunk by the Canadian government fisheries patrol vessel, Malaspina. No official confirmation however has been received.

Eraser Hint.

When the eraser becomes well worn it is apt to smear the paper when it is used to erase a letter. To avoid this, simply rub a little chalk on the edge of the eraser and no smear will occur; and the eraser of the letter will be done much more quickly as well as more neatly.

In line with the Northern Pacific railway company's plans for preparing for a heavy crop movement, this notice was posted in the railway shops Saturday morning:

"We are just authorized to increase forces of the car department 50 men, therefore all men who were laid off January 7 will be re-employed according to seniority rights. This will replace nearly the entire force. Please report for work as soon as possible. If not on hand within a reasonable length of time, the next oldest in order will be employed."

Putting 50 men on the payroll increases the shop's payroll \$7,250. The large proportion of men who were laid off in this department found employment in town or country and can easily be reached so as to go back to their old employment.

News of this shop order caused general good feeling throughout the shops, and it in turn was reflected through town and countryside. The force will be within 20 men of the highest number ever employed in the car department.

PLAN OFFERED TO SETTLE SILESIAN CONTROVERSY

AMBASSADOR WALLACE PRESENT AT COUNCIL WHERE PLAN WAS PROPOSED

(United Press)

Paris, May 28—The United States today participated in the first inter-allied step toward settlement of the Upper Silesian controversy.

The council of ambassadors, with Ambassador Wallace present, drafted a note to the allied plebiscite commission asking unanimous approval of the following proposals:

Creation of a neutral zone comprising the disputed area.

Occupation of this zone by allied military forces.

Occupation by Germany and Poland respectively, of portions of Upper Silesia which voted overwhelmingly in their favor pending fixation of the frontier.

The council rejected a joint anti-allied proposal under which the Germans and Poles would permanently occupy the area under dispute.

GOVERNOR PREUS' FATHER DIES

WAS PRESIDENT OF LUTHER COLLEGE AT DECORAH, IOWA

(By United Press)

Decorah, Iowa, May 28—Christian Keyser Preus, father of Governor Preus of Minnesota, died here at 2:30 A. M. today.

He was 68 years old and had been in ill health for some time. Governor Preus had spent several days here and left Friday noon for Minneapolis. He is expected to return here at once.

The funeral probably will be held here next Wednesday.

Christian Keyser Preus was born in Leeds, Wis., Oct. 13, 1852. He was ordained a Lutheran minister in 1876 and since 1902 he has been president of the Luther college here.

Fine!

On English railways all classes of employees, when on their annual holiday are given a free pass on the company's lines. These are good not only for themselves, but also for their wives and families.—Brooklyn Eagle.

GERMANY MAKES FIRST PAYMENT OF WAR REPARATIONS

\$50 MILLION GOLD MARKS ARE ENROUTE TO PARIS HEAVILY GUARDED

(United Press)

Berlin, May 28—Germany has completed her first payment of war reparations.

Enroute to Paris today in charge of heavily guarded special messengers were twenty draft bonds of ten million dollars each representing \$50,000,000 gold marks. This completes the initial payment of one billion marks.

The cabinet has now turned its attention to carrying out the disarmament provision of the peace treaty. The question of demobilizing the Bavarian civil guards was first taken up.

Jud Tunkins.

Jud Tunkins says in looking over his friends we're apt to be far-sighted in the faults and near-sighted for the times.

MISS DAGMAR PERKINS

Miss Dagmar Perkins is president of the National Association for the Improvement of Speech. The present aim of the association, she says, is to endow an institute in New York which will uphold the standards of American speech as the French academy has done for the French language.

FIVE CENT LOAF OF BREAD SHOULD NOW BE SELLING

BASED ON PRESENT PRICE OF WHEAT SAYS N. D. FARMERS' REPRESENTATIVE

(By United Press)

New York, May 28—The farmers of North Dakota are working to bring back the five cent loaf of bread. They declared bread could now be sold at the old standard figure based on the price of wheat and they are planning to demonstrate this to the rest of the country. Horace A. Davis, of Brookline, Mass., eastern representative of the Bank of North Dakota, said in an interview with the United Press today that the state will soon issue a seven million dollar bond issue thru the bank to establish a flour mill at Grand Forks through which the demonstration will be carried out.

"Bread could be selling at five cents a loaf now, and it should be," Davis said. "The difference between the present price of bread and the nickel is unfairly taken by millers, transport men and the middlemen and others operating between the farmer and the consumer."

"The experience now being carried out in North Dakota will show that this waste can be eliminated and wheat can be brought to the public in the form of a five cent loaf of bread."

"Former Vice-President Marshall declared some time ago that 'What this country needs is a good five cent cigar.' I feel that a five cent loaf of bread would be more indicative of a return to 'normalcy.'"

Davis explained that a small experimental mill established at the North Dakota state agricultural college about one year ago has shown that most all of the lower grades of wheat for which the farmers were forced to accept a much lower price from the millers, had been used to make high grade flour for which the millers received the usual price. The extra profit by millers was said to have ranged from 21 to 112 per cent.

BUDGET SYSTEM WILL BE ADOPTED

BILL ESTABLISHING SYSTEM IN PRESIDENT'S HANDS NOW FOR SIGNATURE

(By United Press)

Washington, May 28—The federal government is about to be put on a true business basis for the first time in its history.

This will be made possible by the signing of the budget bill which lies on President Harding's desk today and is certain to receive approval in the immediate future.

President Harding, in signing this act, will be carrying out the first big constructive step in a campaign of efficiency to which he is committed.

The budget system will require that the government keep its expenses within hailing distance of its income. It is a reform which has been urged by students of good government for years. Most European governments have been years ahead of the United States in introducing this simple business principle.

LATE BULLETINS

(United Press)

San Diego, Calif., May 28—Lieut. George P. Howe of the U. S. S. Arcoot, is said to be dying and a machinist was seriously injured in an airplane crash at the aviation field, the plane striking near the administration building.

St. Paul, May 28—"Baseball is clean, if anything in the world is clean and will stay clean," said Judge K. M. Landis as he attended the official pennant raising.

St. Paul, May 28—Milk will be quoted at 10c a quart and cream at 12c a half pint, according to large milk dealers. A drop in cheese and butter prices is responsible.

New York, May 28—Negotiations for settlement of the Stillman divorce case have been abandoned and warfare has been resumed. An additional amended answer is to be filed naming another co-respondent besides Mrs. Leeds.

St. Paul, May 28—Investigation into the mysterious disappearance of Mrs. Kate Mahoney, wealthy Seattle woman, has turned to St. Paul, and it has developed, it is alleged, that Mahoney had two wives. Mahoney married Irene Golden Ford in St. Paul Oct. 16, 1914. In 1915 she gave Mahoney a power of attorney concerning her St. Paul realty holdings. In 1916 the first Mrs. Mahoney dropped out of sight in Tacoma, Wash.

REINFORCE BRITISH TROOPS IN IRELAND

OFFICIAL ESTIMATES PLACE THE CIVILIAN CASUALTIES AT "SCORES"—25 KILLED

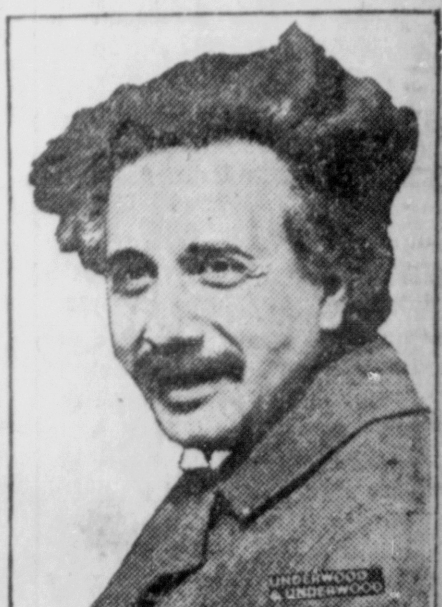

(By United Press)

London, May 28—British troops in Ireland are shortly to be reinforced by several thousand, it was semi-officially announced here today.

Reports were circulated that the present force of fifty thousand would be at least doubled. Practically all of the additional military forces, it was said, may be employed as mobile units shifting from one area to another as conditions require.

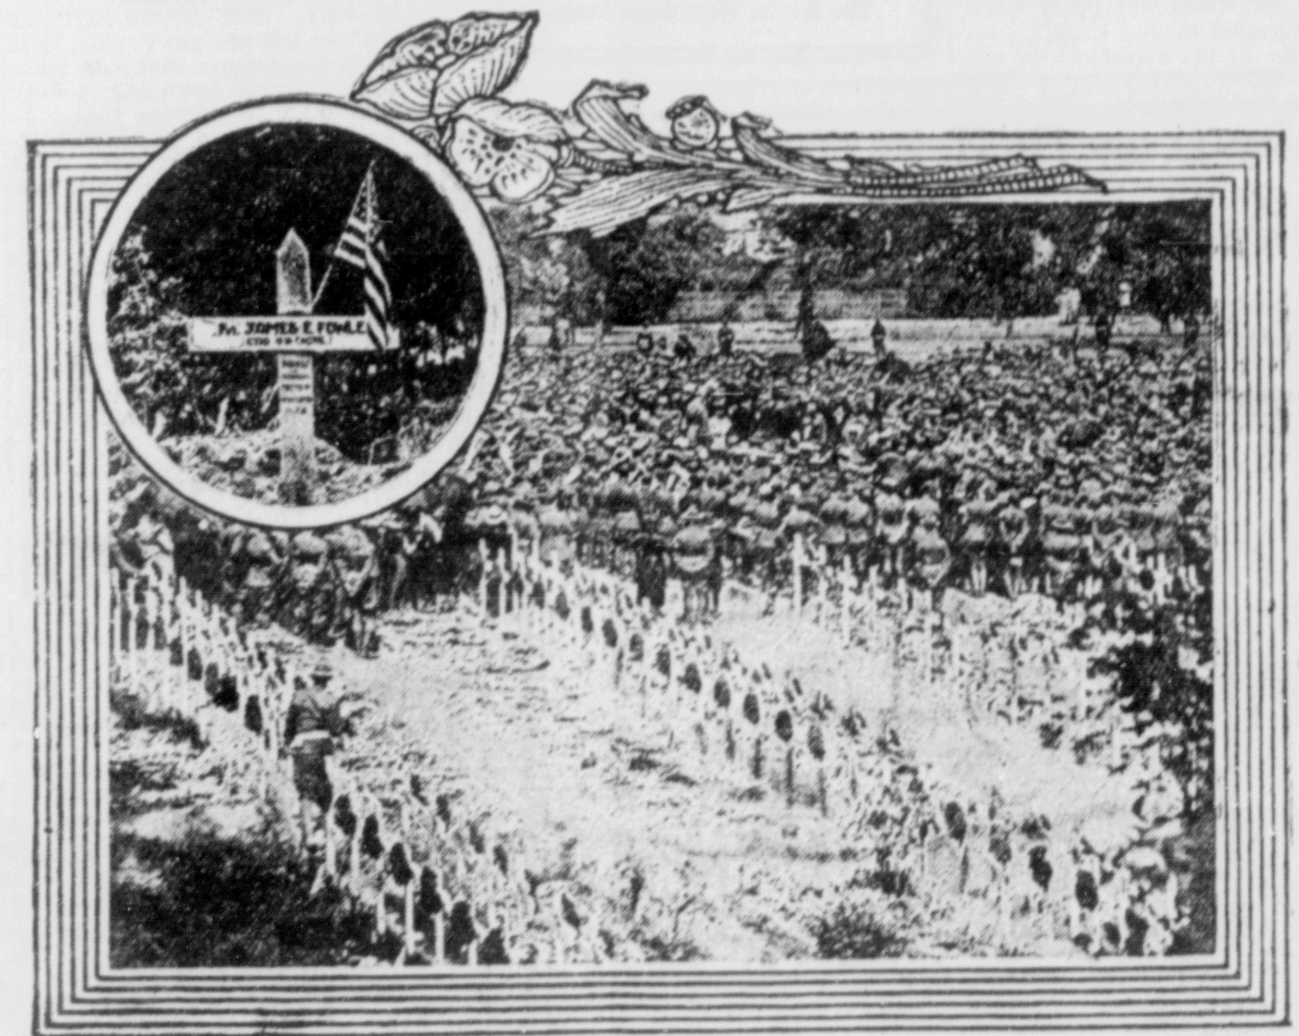

Official estimates place the civilian casualties in this week's raids and riots at "scores," while 25 soldiers and policemen were killed and at least 30 wounded.

DR. ALBERT EINSTEIN

Dr. Albert Einstein, propounder of the famous theory of relativity.

French War Orphans to Pay Tribute to American Hero Dead on Memorial Day

Services at the graves of the American soldiers who sleep beneath the poppies of Flanders Field.

Memorial Day will find hundreds of French children, self appointed guardians of the graves of American soldiers dead in France, placing wreaths and flowers upon the mounds marked by white crosses, the final resting places of the thousands who gave their lives for world freedom. Americans will pay their tribute to these fallen warriors by wearing the official memorial flower, the poppy of Flanders Field, that has been immortalized

in verse and prose. The "Wear a Poppy" Movement is sponsored by the American-France Children's League, a volunteer organization of patriotic and philanthropic men and women of both nations. It has been endorsed by the National Information Bureau. In this country, and by President Millerand of France. The poppy that will be worn in America is a replica in silk of the blossoms that have sprung up over

the graves of Americans in France. Most of the poppies have been made by French war orphans. The funds that are obtained through the sale of the flowers will go to the American-France Children's League for relief work among the children of the war-torn districts, the children who, even though in poverty, have kept fresh the flowers on the graves of their heroes, the American soldiers.

THE WEATHER

Forecast for next 24 hours:
Minnesota—Fair tonight and Sunday, colder tonight and in the east portion Sunday.

Cooperative observers record,
May 25—Maximum 70, minimum 49. Reading in evening 61. North wind. Cloudy. Rain. Precipitation, 0.07 inch.
May 26—Maximum 65, minimum 55. Reading in evening 60. North wind. Cloudy. Rain. Precipitation, 0.21 inch.
May 27—Maximum 74, minimum 56. Reading in evening 69. East wind. Cloudy. Rain. Precipitation, 0.16 inch.
May 28—Minimum during the night, 59.

Ask for Bud. 276tf

The milk ordinance adopted by the council is published in today's Dispatch and should be scanned by citizens so as to become familiar with its provisions. Several applicants are in the field for the position of milk inspector. Dr. C. A. Nelson of Brainerd, Dr. McGinn of Aitkin and others.

Sunday chicken dinner at "Birchdale", West's place on North Long Lake. Served 5 to 8 p. m.

Rev. H. J. Wolner and family will leave next week for their new home at Cloquet. They will occupy their cottage on their farm near Cloquet during the summer as the new rectory is not completed. The family have made many warm friends during their residence in Brainerd who will greatly regret their departure.

Daily Matinee at the New Lyceum 2:15. Complete show from 2:45.

Fine laundry work, all kinds, guaranteed. Leave at or call Anderson Bros. 139-W. 1tpd.

Five men are at work repairing cement paving, using Tarvia to fill in cracks. On North Sixth Saturday morning a force including W. C. Rasch, Arthur Thayer and J. B. Lee did repair work. A block and a half has been completed on North Third street, two blocks are being repaired on North Sixth street, and the next place to be treated will be Third Avenue Northeast.

TOO MANY WIVES

Much-Married Man Explains His Position.

United States Citizen, in Zululand He Was Compelled by Custom to Wed Five Black Beauties.

Escaping in the middle of the night from his five obligatory "wives," in the forest fastnesses of Zululand, Farid Bey Derighan, otherwise Mr. Doughan, subject of the Egyptian salutation, has arrived in New York. He is a former citizen of the United States, where he bore the more ordinary name of Doughan.

Farid Bey was born in 1898, in Su-lung, 350 miles south of Cairo, on the Nile, under the shadows of the Sphinx and pyramids. His father at that time was director of irrigation projects under the ministry of the Sudanese government. His mother, also an American, died in Egypt when Farid Bey was a child. An older son, George, also was left in the father's care.

Te father returned to the States with his sons when Farid was seven, George, when seventeen, virtually kidnapped his younger brother and spirited him away. Some years later the father learned that the elder brother, George, was employed in the diamond mines of South Africa, while the younger Farid had been left in a French school in Cairo.

Farid became a diamond mine superintendent and was given the Turkish title of effendi.

During the World war Farid Effendi was recruited by the British army and because of his knowledge of Ori-

ental languages, assigned for duty with the Indian army, serving in Palestine as captain.

Although now only twenty-two years old, Farid Bey wears four British campaign medals.

"And how about your five wives?" "You see," the bey replied, "when I was in Zululand, directing natives working in the diamond mines, I had allotted to me a number of native servants, including young girls—all very dark.

"One of the tribal requirements, in order that a white man might live there, is that he take at least five of these belles as 'wives.' Otherwise, serious difficulties and even death might ensue.

"Some months ago I determined to return to the United States. The problem of how to get away from my black beauties loomed up formidably before me. They had become very attached and I feared for the worst if I let them know I planned to leave.

"I chose an exceptionally dark night, four months ago, to make my escape. When I felt certain that all my wives were asleep, I sneaked out of the place and worked my way past the native guards, and then made a dash for Pretoria.

"Once there it was only a question of taking a train to Cape Town and boarding a steamer for Marseilles."

Joker "Pays" Fares.

The practical joker has found a new way to make himself unpopular. He tried it out last night at the Brooklyn bridge subway station. He was accompanied by two of his office mates, but he raced ahead of them to the ticket booth, calling for "Three" in a generous tone. As he passed the ticket box they saw him drop something in and then rush for the express train. They started after him.

"Hey!" called the ticket chopper. "Whatzamatter?" they asked.

"Don't try to pull that stuff. Drop yer tickets in the box."

"Why, he put in three for —," began one of the halted ones, but he stopped as he saw the joker, giggling, start down the stairs to the platform. He had dropped only one of the three tickets in the box.—New York Sun.

Get Back on Right Track.

No matter how much you patch up a mistake, it won't change its nature! Better right it, and go back to the place where you left the right track! You'll save time, and better still, you'll save heart aches. This is an especially good plan for a class to follow.—Exchange.

Little Money Saver Says:

The Eclipse Lawn Mowers which we are showing have the famous self sharpening feature which is not found on any other mower. It is a simply device whereby the turning of a screw automatically shifts the gears and your mower sharpens its own blades while you are using it.

When you have seen this mower, you will agree that it is the kind you should have.

Baccalaureate service 8 p. m. Sermon "The Scholar's Responsibility." A cordial invitation is extended to attend these services.

Prayer Meeting

The usual weekly prayer meeting will be held in the church parlors on Thursday evening, at Bethlehem Lutheran church.

Nicknames of Some Cities.
Hannibal, Mo., is known as the Bluff City; Little Rock, the City of Roses; Springfield, Mass., the City of Homes; Cleveland, the Forest city; Charleston, the Palmetto city; Los Angeles, the City of Angels; Jacksonville, the Gateway city.

BACCALAUREATE SERMON SUNDAY

The baccalaureate sermon will be delivered by Rev. S. M. Kelly, pastor of the First Presbyterian at the high school assembly room on Sunday evening at 8 o'clock. The public generally is invited to these exercises of the graduating class of 1921 which numbers 61.

The program follows:
High school orchestra overture.
Class march.
High school orchestra, "Calm is the Night."

Inocation by one of the ministers of the city.
High school glee club, "The Lost Chord."

Scripture reading by one of the city pastors.

Hymns by the audience, "Come Thou Almighty King".

Baccalaureate sermon by Rev. S. M. Kelly.

High school glee club, "Oh Worship the King."

Prayer and benediction by one of the city pastors.

The assembly room is being decorated by the sophomores. Many churches of the city will have no services of their own, but will join in the high school exercises.

AFFAIR OF GREAT DIGNITY

Daily Opening of Session of British House of Commons is a Ceremonious Matter.

The recent retirement of Hon. William Lowther, who was speaker of the British house of commons for 16 years, has given rise to considerable comment on that job, which is one of great dignity. The opening of the daily session of commons is itself an affair of much solemnity.

First comes the speaker's attendant, wearing evening dress, with a gold badge suspended from a chain. As he approaches the inner lobby from the corridor the sergeant shouts, "Hats off, strangers!" and the procession immediately enters the lobby. Following the speaker's attendant comes the sergeant-at-arms bearing the massive gold mace. Somebody recalls that it was Oliver Cromwell who cried, "Take away that bauble," and for the time wrecked a custom that was speedily revived.

The speaker follows the mace. He is attired in a black silk gown, full-bottomed wig and silk knee breeches, the tail of the gown being lifted from the ground by the speaker's attendant, also gowned in silk. The chamberlain and the speaker's secretary bring up the rear of the parade.

It is said that the stranger who was inclined to smile at this display had only to glance at the face of the speaker to check his levity. The latter's composure and the fine dignity of his mien, robbed the ceremony of all stagginess.

"INNOCENCE"—AND AN EGG

It Was Milwaukee Man's Misfortune That He Should Thus Have Been Doubly Armed.

A certain Milwaukee man bought an egg for next morning's breakfast late one night and placed it carefully in the outside pocket of his coat. On the way home he met a suspicious policeman.

"Are you armed?" inquired the guardian of the peace.

"With innocence," replied the citizen.

The policeman had never heard of that. He decided it must be some new kind of Swiss cannon for night use, backed the citizen against a wall and proceeded to pat him from head to foot in search for lumps. Ultimately he struck the lone egg.

"Ah-ha!" said the cop. "I thought so."

What he thought was never said. He jammed his hand down into the pocket and the egg exploded—wrecked by brutality. It spread over the inside of the pocket. It clung to the cop's fingers, stickily, gummiy. The cop pulled his hand out and backed away.

"I got a notion to run you in for operatin' a shell game!" he said, thickly. "Go on—beat it!"

"Beat what—the egg?" asked the man sweetly.

The cop chased him two blocks before his wind gave out.—Milwaukee Journal.

New Reason for Dehorning.
Young red cedar trees in the Wichita National forest are no longer injured by the birds which graze there. The solution of the problem was simple, the cattle are now dehorned.

One of the drawbacks to pasturing national forests has been the injury which was apt to result to the young growth from the grazing animals.

After fire-protection methods on the Wichita were fairly worked out and fires became rare instead of the rule, red cedar began to come rather plentifully all over the forest under the oak stands. As the cedar began to reach a little size the supervisor of the forest noticed that it was being broken rather badly by cattle, both in the tops and in the branches.

After some consideration the supervisor decided to ask the cattlemen users of the forest to run none but dehorned cattle on the Wichita.

PLAIT MODE HOLDS

Accordion Design Will Not Be Forced Out of Favor.

Dropped Waistline, Princess Bodice and Sash Combination Has Been Revived.

Plaits and the one-piece dress have been condemned to die by the designers, but the fashionable public is buying and wearing both of these conveniences. For tenacity of existence plaits and one-piece dresses are actually felle.

There is a subtle difference, however, in the manner of fashioning both the plaited skirt and the one-piece dress, for the new models.

Side and kilt plaits are proper for skirts. The accordion plait simply will not be squeezed out of the limelight. But a firm lid has been put down on the box plait.

The one-piece dress is cut on more graceful and less exposing lines. It is made, too, as a mere background for veritable panoramas of embroidery and of beading. By the time a successful modiste has done her cleverest to a one-piece dress of blue serge the garment stands forth a matchless piece of embroidery or of beading. This embellishment may be of self or contrasting color.

Quilting appears as a trimming, but is reserved rather for the satins. It is liked best, too, on coats or wraps.

In choosing a plaited skirt the canny buyer notes that the plaited skirt that is most recherche is the skirt in which the plaits reserve their spring until they have fallen below the hip line.

Plaits that flare from the belt out are considered too loose to be proper. The dropped waistline and the princess bodice falling below the hips where it meets a sash and knife-

Dress of Beige Crepe de Chine With Knife Plaited Skirt.

plaited skirt has been revived from the debutante days of Lily Langtry.

Cashmires are again on the counters and the hunting of yesteryear—only it is a matured fabric now, masquerading under the names of fancy voles.

White flannel is liked for the plaited skirts, but its maintenance is a matter for grievous worry, except where cleaners and laundries abide in plenty and the bank account is inviolate. As an economical substitute, crepes, both silk and cotton and the rough cotton mixtures may be used.

Plain Colors "Ultra Smart."

Plain colors are announced "ultra-

a close second. Dark blue with an olive tinge is bidding for favor and is getting it. Tobacco brown with a russet tang is distinctive in taffeta, crepe de chine and Canton crepe. Green continues in popularity, in all fabrics, and for day and evening wear, and for indoor and outdoor wear. Copper, henna, tomato red, coral, old rose, pastel blues and pink are particularly dominant at style shows. White and cream fabrics of many weaves are in the market for gowns and coats.

To Protect a Cushion.

If you own a handsome cushion the colors of which are so dainty that the cushion cannot be cleaned without injuring it, provide it with a covering of plain net. Even if several thicknesses of the net are used, the transparency of the net will allow the pattern on the cushion to be clearly seen, and yet it will protect the cushion from becoming soiled. The net can be cleaned and replaced from time to time.

Corsets and Brassieres.

The corset of the hour has a low top and is made of soft materials with the minimum of boning, whether the style be back or front laced. Brassieres are made of all kinds of material, depending upon the purpose for which they are to be worn. Like the corsets, they are made up soft with little or no boning, and one finds less shaping of models, many of the new ones being made of a straight piece of material.

Canada's Auto Industry.

A preliminary survey of the automobile industry for the calendar year of 1919 has been completed by the Dominion bureau of statistics. Three different sections cover automobiles, accessories and repairs, respectively. The capital invested in the industry totals \$57,000,000, of which Ontario accounts for more than \$48,000,000, with a total of 640 out of the 1,236 plants throughout the Dominion. The total number of employees is 13,084, with a payroll of over \$15,000,000. In 1919 there were 61,257 touring cars manufactured in Canada, with a value of over \$52,000,000. Trucks numbered 7,527, with an aggregate value of \$4,850,000.

Delaware River Power Plan.

Announcement of a proposed plan to develop over a half million kilowatts in water power on the Delaware river, at a total cost estimated at 200 million dollars, appears in a recent issue of Electrical World. Active work will be commenced as soon as authorization is received from the federal water power commission. The plan calls for the construction of four dams, with an average head of 80 feet. A steam power plant with a capacity of one hundred thousand kilowatts will be erected somewhere in New Jersey in order to supplement the hydroelectric plant during low water.

Candidates Must Pass Only a Moderate Physical Test—All Their Expenses Are to Be Paid by the Government.

By EDWARD B. CLARK.

Washington.—Officials of the War department are encouraged by incoming reports that between 10,000 and 12,000 young men will enter the citizens' military training camps that are to be held in the nine army corps areas this summer. The first camp will be ready for its training work on July 6.

Secretary of War Weeks has issued an appeal further to stimulate the enrollment of citizens for service in the camps. The secretary says: "Plans are now being formulated which contemplate a month of training for 10,800 citizens between the ages of sixteen and thirty-five years without expense to them. These citizens will be drawn from all parts of the country. Quotas in proportion are being allotted to each state and to each community within the state. This will insure a representative body of citizens being assembled at these camps for training. I am most anxious that the men who take this training shall be thoroughly representative, not only of all parts of the country, but of all classes. For this reason the qualifications demand simply average intelligence and physical ability to take the courses prescribed."

The matter of the procuring of candidates for the camps is placed in the hands of the commanding generals of the nine corps areas of the United States, and all applications received by the war department are referred to the proper corps area headquarters for action. Any young man who desires to enter the camps should write directly to the corps headquarters of the area in which he resides.

Headquarters and Camps.

The headquarters of the chief corps areas and the camps' locations are as follows:

First Corps Area, Boston, Mass., will be at Camp Devens, Mass., August 1, and will include Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut.

Second Corps Area, Governors Island, N. Y., will be at Plattsburg Barracks, N. Y., August 7, and will include New York, New Jersey, and Delaware.

Third Corps Area, Fort Howard, Md., will be at Camp Meade, Md., August 1, and will include Pennsylvania, Maryland, District of Columbia and Virginia.

Fourth Corps Area, Fort McPherson, Ga., will be at Camp Jackson, S. C., July 18, and will include North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi Tennessee, and Louisiana.

Fifth Corps Area, Fort Benjamin Harrison, Ind., will be at Camp Knox, Ky., July 21, and will include Ohio, Indiana, West Virginia and Kentucky.

Sixth Corps Area, Fort Sheridan, Ill., will be at Camp Grant, Ill., July 21, and will include Michigan, Wisconsin and Illinois.

Seventh Corps Area, Fort Crook, Neb., will be at Camp Pike, Ark., August 1, and Fort Snelling, Minn., August 1, and will include North Dakota, South Dakota, Minnesota, Nebraska, Kansas, Missouri, Arkansas and Iowa.

Eighth Corps Area, Fort Sam Houston, Tex., will be at Camp Travis, Tex., July 15, and Fort Logan, Colo., August 1, and will include Colorado, New Mexico, Texas, Oklahoma and Arizona.

Ninth Corps Area, San Francisco, Calif., will be at Camp Lewis, Wash., July 6, and Presidio of San Francisco, Calif., July 6, and will include Washington, Oregon, Idaho, Montana, Wyoming, Utah, Nevada and California.

It is believed by the government that the physical upbuilding exercise, coupled with freedom of the outdoor life, will benefit every young man who enters one of the camps. In addition to this will be given at least the beginning of a training which it is believed will be serviceable to him mentally, morally and physically, and may, if duty ever shall call, make it certain that he can be of service to his country.

Every young man who attends one of the citizens' military training camps can do so without cost. Every cent of his expense, including that of traveling to and from the camp, will be met by the government. His equipment and his clothing, except underwear, also will be provided. As it has been put, all that a candidate need say is, "Let's go!" pack his linen in a suitcase in which he will keep his civilian clothes while at camp, put his certificate of physical fitness and his order to report in his pocket, and start on his way.

SALVAGERS DID GOOD WORK

Recovering Disabled Ships During the World War Was Matter of Highest Heroism.

Landlubbers link salvaging ships and cargoes to easy deals in treasure trove, but the shippers of the salvaging ships would tell them that salvage is sweaty and poorly paid exertion. They do not regard themselves as adventurers of romance. They are divers of seagoing ambulances. They are marine surgeons, who operate on sick or disabled craft, says the Spokane Spokesman Review.

Salvaging before the war was a matter-of-fact trade, but during the war it became a business fraught with extraordinary dangers. The maritime belligerents had to save every damaged or sunken ship that they could, and the salvager was almost as indispensable to winning the war as was the man-o-war.

At the Dardanelles five vessels were sunk near shore, and yet all were salvaged expeditiously by the Liverpool firms.

In June of 1917 the salvagers recovered four good-sized steamers in ten days that had been sunk in the English channel. They salvaged Dentle's flagship and the Britannia and the Asturias; the submarine K-13 after its crew had been submerged two and a half days; the wrecks off Ostend and Zeebrugge.

The salvaging boats had at one and the same time to act as machine shop, power house, pumping station and tug. They worked in a single spot, where they were target for every German submarine anywhere around. They showed a heroism beyond praise.

LEAF FROM LANDLADY'S BOOK

Drummer Devised Shrewd Scheme for Putting End to Series of Petty Extortions.

"Like cures like," said Speaker Gillett, proposes of certain extortions. "Abuse may cure abuse, too."

"I once knew a drummer for a chemical firm. This drummer would visit Pottsville four or five times a year. He would arrive late in the evening at the Pottsville hotel and depart after lunch the next day. He didn't stop a full day, you see; he got no dinner; nevertheless he was always charged a full day's board."

"The extortion got on his nerves at last; so one afternoon when his bill was brought him, he took out his pad and drew up an account against the landlady for a carboy of sulphuric acid."

Battery Foresight

It pays to look ahead when you buy a battery.

It only takes a minute or two to be sure you are getting a Willard Threaded Rubber Battery with insulation.

Threaded Rubber Insulation will save you dollars and hours later, because it keeps on doing its work as long as the plates last. No bills for replacing insulation—as there always are for replacing wood separators.

Drive in. Let us tell you the whole story.

Electric Garage

Willard Batteries

said to the waiter, 'and ask her if she would mind settling up at once.'

"In a few minutes Mrs. Tompkins herself appeared.

"Why," she said to the drummer, 'I never bought any sulphuric acid from you in my life. This bill is a mistake.'

"Neither have I ever eaten any of your dinners, ma'am," said the drummer, 'but you charge me for them every time I come to Pottsville.'

"After that the Pottsville hotel never charged the drummer for things he hadn't had."

The Catch.

A New England spinster was 'much enamored of a neighboring farmer, but the affection was not returned. One day, starting on one of his weekly visits to town, the maiden came rushing out, crying:

"Yoo-hoo, Mr. Simpkins, do you mind taking me with you?"

The farmer considered warily and finally allowed her to climb in.

In vain the lady tried every topic of conversation without eliciting response and finally in desperation fell back on the passing bits of scenery. Going by the minister's house, she cried: "Oh, Mr. Simpkins, what a beautiful hitching post Pastor Watson has."

"Gee darn," cried the other cracking his whip. "I knowed there was a hitch in it somewhere. Dohbin, giddap. Ma'am, that's for hosses only."—American Legion Weekly.

One Thing After Another.

It is many years since man was to be cured of all his ills by the removal of a largely superfluous appendix. When the mode of that operation began to pall pyorrhea became the chief criminal and the substitution of "dentures" for the unruly teeth of nature the elixir of life. But man's health was still indifferent, and the discovery of the "dead tooth" in all its perils promised a pathway to centenarian vigor. Passing by monkey glands, we now come to the nerve centers of the spine as the seat of all trouble and to a delicate combination of osteopathy and massage as the infallible recipe for perfect health.—London Express.

USE DISPATCH WANT ADS

Deadly Duel Between Eagles.

Two eagles have had a fight to the death at Invergarry, Inverness-shire, writes a London Daily Chronicle correspondent. Within a few yards of a road a boy, the son of a herd keeper, saw two golden eagles engaged in a fierce combat. He watched the struggle, and saw one of the birds fall on its back dead in a ditch. Its adversary, with beak fast in the other's throat, then stood triumphantly on the victim's breast.

For Mending Rubbers.

Old jar rubbers can be heated in a pan until they become soft and then smeared on holes in your hot-water bottle, your boots, shoes, or anything else that needs mending. The rubber patch should be smoothed down with the heated blade of a knife.

MAKING FINAL ARRANGEMENTS

Memorial Day Services Promise to be Largely Attended and to Have Huge Parade

REV. H. J. WOLNER IS SPEAKER

Franz R. N. Anderson, Parade Marshal—Camp Fire Girls to March Knights of Pythias Too

Final arrangements completed now insure a wonderfully patriotic Memorial Day observance and a huge parade. The arrival of three bodies of world war heroes, Edward A. Olson, Monroe Elder and Frederick C. Roll, has brought in vivid light the patriotic duty of every citizen that he show respect and devotion to the dead heroes of this war as well as the heroes of wars of the past.

Ladies on Horseback

The committee on the Decoration Day gives out the following information. Miss Van Epps and Miss Mildred Zierke will be on horse back on Monday morning to take their places in the parade immediately following the drum corps. They will be dressed in red, white and blue, representing "Liberty." The young ladies will take their places in front of King's store before the parade.

Autos Wanted

Citizens having autos to place at the disposal of the committee to convey persons to the cemetery are asked to phone Milton Mahlum before this evening. The committee is anxious to have sufficient autos to take care of conveying those who cannot walk to the cemetery and the persons who take part in the program.

Anyone having a horse for the marshal of the day to ride in the parade is asked to call Franz R. N. Anderson at the studio.

Bert Orne is in charge of getting the sailors together and they will meet in front of the Commercial State bank before the time of the parade. The Camp Fire girls will be under the direction of Miss Burrell and will meet in front of R. D. Kings store.

FORMER BRAINERD GIRL TAKES POISON

Fargo, N. D. May 28—Mrs. Roy Rivers, formerly Miss Mamie Brown of Brainerd, married twelve days, committed suicide by drinking poison. In her effects was found a letter addressed to Mrs. Mamie Brown, 807-805 South Seventh street, Brainerd, Minn.

Inquiry at the home of Wm. H. Everest, 807 South Seventh street, elicited the fact, that two girls named Florence and Mamie Brown had lived at 805 South Seventh street two months ago. Their father, Andrew Brown, lives in the country near Brainerd.

POST OFFICE HOURS DECORATION DAY

There will be no delivery of mail by city or rural carriers on Decoration Day, but the office will be open between 8 and 9 o'clock a. m. and mail will be delivered to all who call between these hours.

NOTICE

For the safety and convenience of those interested in the Decoration Day Parade, the mayor has ordered Sixth street between Laurel and Front streets closed to traffic between 8:30 and 9:30 a. m. on Monday, May 30th. Kindly govern yourselves accordingly.

CHAS. H. VARNER, Chief of Police

Divide Ownership of Great Lakes.

The largest of the Great Lakes is Lake Superior, area 31,800 square miles. The smallest is Lake St. Clair, area 445 square miles. The second largest is Lake Huron, area 23,200 square miles. Lake Michigan is third, 22,400 square miles; Erie fourth, 19,000 square miles; and Ontario, fifth, 7,200 square miles. Lake Michigan is wholly within the United States. Half of the area of the other Great Lakes is within Canada.

Embarrassing Moment.

It happened when I made my first visit to my husband's people. My sister-in-law had made some cakes and had several yolks of eggs left and didn't know what she could do with them. I suggested she let me make scrambled eggs like I had seen my mother make, so nice and fluffy. But I put too much flour in the mixture and it came out so hard it was a task to cut through it with a knife.—Chicago American.

Hopelessly Out of It.

Jud Tunkins says he'd like to be in politics if it wasn't for the fact that he's got a bone below and can't shake hands.

PROCLAMATION

The body of Ed. Olson having arrived in our city, and having been informed that the funeral will be Sunday afternoon at 1:30 o'clock from the home of A. G. Anderson, and at 2 P. M. from Clara Lutheran church, I would like as many of our citizens as possible to attend this funeral and in this way show our respect for one who gave his life for his country.

F. E. LITTLE, Mayor of Brainerd

CLOSING HOURS OF CONVENTION

Lively Discussion Followed Over Presentation of Disarmament Resolution Friday Evening

AT WOMEN'S CLUBS MEETING

Sauk Center's Invitation to Hold Next Convention There is Accepted by Club Women

Before the regular evening program was taken up, the resolutions committee made its report, and quite a lively discussion followed on the resolution in regard to disarmament.

Miss Mary Benton, of Carlton college, was asked to speak on the question, and made a strong plea for a vigorous resolution on the subject. She said that the world was really adopting German's policy of armed preparedness, so that in a real sense, Germany had won the war, because she had succeeded in getting her ideas adopted. We had said that we were fighting militarism, but psychologically speaking, militarism had conquered us and we would never have peace until we stopped thinking and planning for war. She said that of course we knew that we did not desire conquest, that we were a peaceful people—but it was hard to make other nations believe that, while we were building battleships just as fast as we could, and were making no serious efforts toward a world agreement on disarmament.

Participants in the field for the post-a community sing, led by F. R. Randall, with Mrs. Walter F. Wieland at the piano. This was just long enough to make the audience wish for more. S. F. Alderman then gave a solo, with encore, with Mrs. Wieland at the piano.

After explaining the mission upon which she was sent to France, Miss Benton proceeded to give word pictures of France at war and celebrating the armistice. She described her entrance into the darkened, silent deserted streets of once gay Paris, the terror of a night aerial attack, the destruction wrought by the long-distance gun, and the grim determination of the people to save their city whatever the cost.

The contrast between the anxiety, fear and discouragement of those July days, when the Germans were creeping nearer and nearer their beloved city, and the delirium of joy that took possession of all the inhabitants of Paris, citizens and visitors, sweeping away rank, dignity and all the artificial barriers of society, during the armistice fete, was wonderfully drawn.

Another graphic picture was that of the shell-torn, blood-soaked battlefield. Relics of the fight were strewn all about, pieces of armor, little piles of coffee grounds, unexploded bombs that would explode at the slightest touch, and little wooden crosses every where, with not a living thing in sight except great flocks of carrion crows disputing over their ghastly share of the spoil of war.

Miss Benton closed her address with a plea for Christian education that would so implant in the minds of our youths the seeds of justice and righteousness in international dealings, that war would become obsolete.

A vocal duet was given by Misses Elizabeth and Hilda Weimar, with Miss Grace Oberg at the piano. After much insistence from the audience, they responded to an encore.

Rev. E. A. Cooke started out by saying that on account of the lateness of the hour, he would hold down his speech of an hour and a half to twenty minutes, and he kept his word. He described the community service of his church, covering good will industries, moving pictures, etc.

The meeting closed with a group of songs by Dr. G. I. Badeaux. In spite of the lateness of the hour, the audience was thrilled to enthusiasm, and demanded an encore.

The Sauk Center delegate, who

SECRETARY RANDALL SENDS RESIGNATION

To Be Effective at End of His First Year—Has Served for Eleven Months

RESIGNS FOR FAMILY REASONS

Offers to Remain During Summer Months—To End for Tourists and Summer Visitors

At a meeting of the Advisory Board of the Chamber of Commerce held Monday afternoon, Francis B. Randall, secretary of the Chamber of Commerce, presented his resignation to be effective at the end of the year for which he was asked to assume the duties of this position. Mr. Randall stated that the reason for offering his resignation lay in his desire to be with his family and his aged mother who are now in Wisconsin. He offered to remain through the summer months for the purpose of meeting tourists if the Chamber of Commerce wished him to do so.

During his eleven months in this city Mr. Randall has made many friends who appreciate his kindness of nature, his civic interests and his attempt to foster community spirit by leading the people in community singing. Mr. Randall will be missed when he has passed out of the city's life.

WORLD WAR HERO DEAD ARRIVING

Edward A. Olson

The body of Edward A. Olson, world war hero, has arrived and the funeral has been set for Sunday afternoon, being at 1:30 o'clock from the home of his brother-in-law and sister, Alderman and Mrs. A. G. Anderson, 1803 Oak street and at 2 o'clock from Clara Lutheran church. The pastors officiating will be Rev. Ferd Errington of the First Congregational church, an ex-service man, and Rev. Eloy G. Carlson, pastor of Clara Lutheran church.

All service men will attend, the military exercises being in charge of Capt. Andrew A. Gleriet.

Mr. Olson's number in service was 2851977, being a member of Co. B, 313th Engineers. He was classed a cook. Death was due to pneumonia.

Monroe Elder

The body of Monroe Elder, son of Mrs. Flora Elder, was due to arrive this afternoon. At her request the services were to be quiet. Mr. Elder met death in France while in the transportation corps. He drove a truck and on a dark night was struck by a supply train.

Frederick C. Roll

The body of Frederick C. Roll, whose parents now reside in North Dakota, was expected this afternoon. Two months ago announcement was made that the body of Roll was to be sent to Brainerd for interment.

Capt. Gleriet, in charge of the military funerals, stated that if the body of Private Roll arrived in time, he would be buried at the same time as Edward A. Olson.

Members of the Brainerd Municipal band are asked to meet at the court house Sunday at 12:30 p. m. sharp to arrange music for the funeral and for Memorial Day.

All ex-service men should assemble at the Y. M. C. A. at 1 o'clock sharp Sunday afternoon. It is especially requested that uniforms be worn.

extended the invitation to meet next year at Sauk Center. Mrs. E. J. Lewis said that there was one thing that Sauk Center couldn't furnish that was up to Brainerd's standards, and that was music. She said it was a long time since the sixth district has had such a musical treat. Sauk Center was awarded the next convention. Bemidji and other towns withdrew.

Dispatch will publish later in full a number of the interesting papers read at the convention.

BISHOP MORRISON IN FAREWELL VISIT

Rt. Rev. James D. Morrison, D. D., Bishop of Duluth District, Visits St. Paul Parish

DELIVERS ELOQUENT SERMON

From Brainerd Went to St. Cloud Where He Holds Services Sunday, Then Goes to Duluth

The Rt. Rev. James D. Morrison, D. D., bishop of the Duluth district, who has retired from active church work after many years of service, made his farewell visit to St. Paul's Episcopal church on Friday evening and delivered an eloquent sermon. On Friday evening he was entertained at dinner by Mr. and Mrs. F. A. Farrar.

From Brainerd the bishop went to St. Cloud where he will hold services on Sunday. He will return to Duluth and attend the diocesan convention June 7 and 8.

The bishop and Mrs. Morrison will leave in the near future for their old home in New York state, where they expect to spend their declining years.

PLAN HARD SURFACED ROAD TO LITTLE FALLS

Group of Road Boosters of Down River City Here to Advance Project

WOULD BUILD ROAD NEXT YEAR

Meeting Held With Local Men Friday Morning in Chamber of Commerce

An interesting meeting of the Road Boosters of the Little Falls board of Commerce and representative citizens of Brainerd was held in the Chamber of Commerce rooms this morning at 10 o'clock. The matter of the two towns getting behind the project of a hard surfaced road to connect the two towns was discussed. These present expressed the belief that if the two towns co-operate this road can be built before the end of the year 1922.

MEMORIAL DAY

The Dispatch, as is its custom, will print no daily edition on Memorial Day, May 30, that being a legal holiday. It gives employers and employees the opportunity to observe the day honoring our soldier and sailor dead.

NOTICE

The Bricklayers, Masons and Plasterers International Union No. 14 of Brainerd, Minn., has lowered its scale of wages to \$1.12 1/2 per hour, effective June 1st, 1921.

E. G. HAGBERG, Sec'y.

Sweeney Says:-

A well painted screen will last indefinitely while one with the wires exposed will be rusted out in a very short time.

A coat of GILT EDGE SCREEN PAINT will give your screens the protection they need and will not clog the holes.

Paint them now and save money.

You will enjoy trading here.

ORDINANCE NO 303

To preserve public health by providing for the inspection of milk sold within the city of Brainerd and of dairies and dairy herds kept for the production of such milk and of the plants where such milk is bottled or pasteurized, and to license and regulate the sale and disposition of milk in said city, and providing penalties for the violation thereof.

The City Council of the City of Brainerd do ordain:

DEFINITION OF TERMS

Section 1. The word "person" as used in this ordinance shall be construed as including individuals, corporations, partnerships, associations, and corporations. The word "milk" shall include whole milk and cream, except where the more limited terms are used with specific meaning.

LICENSE AND INSPECTION

Section 2. No person shall sell milk, except for manufacturing purposes, within the city of Brainerd without first obtaining a license therefor as herein provided. Restaurants, hotels, or public eating houses shall conform to the requirements of this ordinance, but shall not be required to take out a license to sell or distribute milk. All licenses issued under this ordinance shall be for not more than one year, and shall expire the first day of June unless sooner revoked. No such license shall be transferable, except upon recommendation of the City Health Officer and approved by the City Council.

Section 3. Any person desiring a license to sell milk in the city of Brainerd shall file with the city clerk a written application, addressed to the City Council, on a blank furnished by the city. The city clerk shall present all such applications to the City Council, together with a report from the dairy inspector, stating that the applicant has complied with the requirements of this ordinance, and is a fit and proper person to receive such a license. Such application shall set forth with reasonable exactness the name and place of residence of the applicant, the location or place from which the applicant obtains, or is to obtain his milk and if the applicant is not a producer of milk, then the name and address of the person or persons from whom he obtains or is to obtain milk for sale or distribution, and if said applicant is a producer of milk, the number of cows in his dairy herd, or herds, of the person, or persons, from whom he obtains, or is to obtain, such milk. The filing of such application, as aforesaid, shall authorize the applicant to sell and distribute milk until said city council takes action thereon and either grants a license to the applicant, or refuses to do so. A person licensed according to the provisions of this ordinance shall notify the City Health Officer upon the addition of any producer, or producers, to his source of supply.

Section 4. It shall be the duty of the City Health Officer to cause all dairies, pasteurizing plants and other places where milk intended for sale in the city of Brainerd is produced or handled, to be inspected for the purpose of determining whether such places are equipped and operated as required by this ordinance. Refusal to permit such inspection shall be sufficient cause for refusing or revoking such license.

Section 5. The City Council shall appoint a licensed veterinarian who shall be a graduate of a reputable veterinary college, and approved by the State Live Stock Sanitary Board, as dairy inspector and shall make provision for his compensation. The Dairy Inspector shall keep on file a weekly report of his activities containing such information as the Health Officer may require. A copy of this report shall be filed with the City Health Officer and the City Clerk.

Section 6. The City Dairy Inspector shall have authority to prohibit the sale of milk for human consumption, milk which has not been produced or handled in accordance with the provisions of this ordinance. Milk found in the possession of any person licensed to sell milk in the city of Brainerd shall be considered as intended for sale in the city of Brainerd.

STANDARDS, CLASSES, AND LABELS

Section 7. Milk sold in the city of Brainerd shall be the whole, fresh, clean, lactose secretion obtained by complete milking of one or more healthy cows, properly fed and kept, excluding that obtained within fifteen days before and five days after calving, or such longer period as may be necessary to render the milk practically colorless in color. It shall contain not less than 3.25 per cent natural milk fat and otherwise conform with the state laws as required by the State Dairy and Food Department.

Section 8. All milk sold as "milk" in the city of Brainerd shall be of one of the following classes: raw or pasteurized.

Section 9. Raw milk shall be milk from cows free from tuberculosis as determined by an annual test. Tuberculin tests shall be made by a graduate, licensed, veterinarian employed by the City Council and City Dairy Inspector and in accordance with the regulations prescribed by the State Live Stock Sanitary Board. A copy of each test shall be forwarded to the Secretary of the State Live Stock Sanitary Board for approval. Herds in which tuberculosis is found shall be subject to examination and retest in accordance with the regulations of the State Live Stock Sanitary Board. All cattle which are found to be affected with tuberculosis, or any other diseased condition which renders milk unfit for human consumption shall be immediately isolated from the herd and the milk from such animals shall not be offered for sale or distribution.

Upon making application for a license to sell raw milk in the City of Brainerd the applicant shall pay to the City Clerk for such tuberculin tests, a sum to be computed in accordance with the following schedule: For the first cow tested in any herd.....\$2.00 For the second cow tested in any herd.....1.50

For each additional cow tested in any herd.....75

William S. Hart, Eva Novak, and Master Richard Headrick in a scene from "The Testing Block," A Paramount Picture

Showing at the NEW LYCEUM Monday and Tuesday

herd.....1.50
For the third cow tested in any herd.....1.00
For each additional cow tested in any herd.....75

Provided, however, that producers selling milk exclusively to pasteurizing plants, and that dairy herds identified on the list of "Tuberculin-Free Accredited Herds" of the State Live Stock Sanitary Board shall be exempt from all provisions of this section relative to tuberculin testing.

Section 10. The Dairy Inspector shall be notified at once of addition of cows to the herd, or herds, owned by licensees selling raw milk, or to the herd, or herds from which they obtain their milk and no milk shall be sold from such cows until they have been tuberculin tested as herein provided. The fees for testing such animals shall be paid to the City Clerk and shall be computed as for the testing of a new herd.

Section 11. Raw milk shall conform to the standards specified in Section 7 and to all other regulations applicable to raw milk and shall not contain more than 100,000 bacteria per c. e., when delivered to the consumer. A physical examination shall be made by the Dairy Inspector for which no fee shall be charged, at least quarterly of all animals in herds producing raw milk.

Section 12. Pasteurized milk shall have a bacteria count before pasteurization of not more than 1,000,000 bacteria per c. e., and after pasteurization, the count shall not exceed 50,000 bacteria per c. e., when delivered to the consumer. It shall otherwise conform to the standards specified in Section 7, and to all the other requirements governing production, handling, and pasteurization contained in this ordinance. All cows producing such milk shall be healthy as determined by physical examinations made by the City Dairy Inspector, and for which no fee shall be charged.

Section 13. "Raw Cream" shall be from milk produced by tuberculin tested and non-reacting cows, and shall contain not more than 500,000 bacteria per c. e., when delivered to the consumer. Pasteurized cream shall contain not more than 100,000 bacteria per c. e., when delivered to the consumer. Raw and pasteurized cream shall contain not less than 20 per cent of milk fat. Cream sold as whipping cream shall contain not less than 35 per cent of natural milk fat.

Section 14. The milk bottle caps on all milk sold in bottles shall bear the name of the distributor and shall designate the class of milk therein contained.

Section 15. The sale of misbranded milk or cream is hereby prohibited. Milk or cream shall be deemed to be misbranded when the contents of the container do not comply with the brand on the cap, tag, or label.

PRODUCTION OF MILK

Section 16. No building shall be used for stabling cows for the production of milk to be sold in the city of Brainerd unless it is in good repair and kept in a sanitary condition. The floors shall be water tight and adequate drainage provided. The walls, ceilings, and ledges of the barn shall be kept reasonably free from cobwebs and dust. Dairy barns shall have tight ceilings and sufficient light and ventilation. Cows shall be clean at time of milking.

Section 17. Milk must not be kept or stored in any stable, or in any room used for sleeping or domestic purposes, nor in unclean or rusty cans.

Section 18. The water supply shall be so located, constructed, and managed that it will provide water of a safe sanitary quality.

Section 19. Producers who retail milk shall be used solely for the cooling, separating, bottling, and storing of milk, and the operations incident thereto.

Section 20. Milk rooms shall have tight walls and ceilings and shall be provided with sufficient window light and proper ventilation. The floor shall be water tight and properly drained. Milk rooms shall be kept in a clean sanitary condition and effectively screened against flies.

Section 21. Milking shall be done with clean, dry hands, or with a properly sterilized milking machine. A small top milk pail shall be used. After each use, milk handling utensils shall be thoroughly cleaned and dried, and protected from contamination until again used.

Section 22. Milk shall be promptly cooled after it is drawn, to a temperature of fifty (50) degrees Fahrenheit or below, and thereafter stored under conditions which will maintain it at or below this temper-

ature until delivery to the consumer.

HANDLING AND DISTRIBUTION OF MILK

Section 23. Milk delivery wagons shall be kept clean.

Section 24. All milk intended for delivery to consumers shall be bottled except in case of consumers receiving one gallon, or more at one delivery. A producer having no more than two cows may sell and distribute the milk from his own dairy unbottled, otherwise conforming to the regulations of this ordinance with the exception of Section 19.

Section 25. All bottles must be thoroughly cleaned and then sterilized with live steam or hot water at a temperature of not less than 180 degrees Fahrenheit before filling with milk or cream, or in such other manner as is satisfactory to the City Health Officer. After sterilizing, the bottles shall be stored in an inverted position in a place where they will not become contaminated.

Section 26. The apparatus or method used in bottling and capping milk bottles shall be such that the milk does not become contaminated during the process. The apparatus or method shall be subject to the approval of the City Health Officer.

Section 27. Milk shall not be bottled on any delivery wagon or at any place other than the milk house at the dairy or at the pasteurizing plant. Milk bottles shall not be submerged in water for cooling purposes at dairies or at pasteurizing plants.

Section 28. No driver on the route or any other unauthorized person shall use, or have in his possession any cans for milk bottles.

Section 29. Milk bottles, milk cans, or other receptacles for milk shall not be used for any purpose other than containing milk or milk products. Milk bottles and cans shall be thoroughly rinsed with clean water immediately after being emptied.

Section 30. No dirty or unwashed bottles shall be returned to a delivery man, or store. Milk delivery men and stores are forbidden to receive or have in their possession dirty, or unwashed milk bottles or cans. Milk served in restaurants and hotels shall be in their original containers.

Section 31. Milk and milk containers shall not be removed from any premises where communicable disease exists, or has existed, until permission is given by the City Health Officer, and shall then be handled as the Health Officer may prescribe. Provided, however, dairymen, not wishing to leave bottles at a house where communicable disease exists, shall require that the housewife provide a receptacle into which the milk may be emptied.

Section 32. Milk cans shall be thoroughly washed and sterilized before they are returned to the shipper or producer.

Section 33. No application for a license to sell pasteurized milk shall be recommended by the City Health Officer to the Council for approval nor shall such license be granted by the Council unless the applicant's plant, equipment, methods of pasteurizing and subsequent handling conform with the requirements of the State Board of Health governing pasteurized milk.

Section 34. The sanitary condition of the plant and all utensils and apparatus used in the pasteurization process together with the methods of pasteurization and subsequent handling shall at all times conform with the requirements of the State Board of Health governing pasteurized milk.

Section 35. All persons in pasteurization plants handling, or bottling milk shall conform with the regulations of the State Board of Health governing the handling of dairy products by persons in the communicable stage of any disease transmissible through milk. The City Health Officer shall, by such examination as the State Board of Health may prescribe, determine that such persons comply with these regulations.

PENALTY FOR VIOLATION

Section 37. Any person who shall violate any of the provisions or requirements of this ordinance or fail

to comply with any of the requirements thereof, shall, upon conviction thereof, be punished by a fine of not less than ten (10) dollars nor more than one hundred (100) dollars, or by imprisonment not exceeding ninety (90) days.

Section 38. No section or provision of this ordinance shall be held to be invalid or in any manner affected, or defeated by reason of any other section or provision of this ordinance being adjudicated or held invalid by any court.

Section 39. This ordinance shall take effect and be in force from and after its publication.

Passed this 16th day of April, 1921.

J. H. STRICKLER,
President of the Council

Approved this 24th day of April, 1921.

F. E. LITTLE,
Mayor

Attest: GEO. W. GREWCOX,
City Clerk.

Published 28th day of May, 1921.

All Want More.
An eastern capitalist says too much money is a bad thing. We have yet, however, to hear anyone admit that he had too much.

Long Pigeon Flight.

One of the longest pigeon flights on record will be attempted from Edmonton, Alberta, to San Antonio, Tex. Arrangements for the flight have been made between the Edmonton Homing club and the San Antonio Homing club. The distance is 2,000 miles.

Between 40 and 50 homing pigeons will be shipped from San Antonio and liberated there by W. Lees, president of the Edmonton Homing club.

The longest flight on record, according to information, was from Rome to Liverpool, a distance of more than a thousand miles, over difficult country.—Brooklyn Eagle.

France Testing New Roads.

Contrary to past practice, composition road surfaces are being put down by the French highway authorities in the Rhone valley. At Givors a test is being made of two miles of an Italian composition. This has a cement basis and is guaranteed for 15 years. The road authorities have expressed their willingness to experiment with competitive types of road material. Of 33,000 miles of roads that required repairs at the time of the armistice, 13,620 miles have been greatly improved, and 2,200 miles have been completely repaired.—Compressed Air Magazine.

Paris War Library.

Over 100,000 volumes and almost as many pamphlets, etc., have been collected by the French government, and a building will be erected having five miles of shelving. The future historian will probably die in the first mile. The collection of manuscripts, photographs and war records is appalling as to numbers, and there seems to be no limit to the gifts of collectors. In this country Princeton university and the University of California are especially strong on war material.—Scientific American.

Decorum.

"When you mention that you saw a lady of your acquaintance on the street, does your wife ask you to describe what she wore?"
"Certainly not," replied Mr. Meekton. "These days it wouldn't be considered a proper question."
